

HALF A MILLION LOSS

Destructive Fire Visits Newark, New Jersey.

ONLY ABOUT HALF INSURED.

The Big Plant of the Central Stamping Company Entirely Destroyed—Two Houses Crushed by Falling Walls—Several Firemen Injured and Others Have Miraculous Escapes From Death.

NEWARK, N. J., Aug. 12.—The fiercest fire the department of this city has had to contend with in many years, with the possible exception of the big grain fire at the Ballentine brewery a couple of months ago, broke out in the plant of the Central Stamping company yesterday afternoon. The front of the company's plant was on New Jersey Railroad avenue, and covered 10 city lots on that street. From this branched another building, five stories high and 75 feet wide, running through the block to Liberty street.

From this building there was a wing of the same size, extending from the middle of the block through to East Fair street. On the south side of the main building on the avenue were five 3-story brick buildings and on the north was a new 2-story brick structure. All these were destroyed. The loss of the Central Stamping company was estimated by State Senator Ketcham, treasurer of the company, as upwards of \$500,000, insurance, \$250,000. The other losses will aggregate \$30,000.

The flames were discovered about 2 o'clock in the blacksmith shop. Even then the fire had a firm hold on the building. A general alarm was sent out, and in 20 minutes every piece of fire apparatus in the city was on the scene. Fifty thousand people watched the progress of the flames. Despite the tons of water thrown on the fire the flames gained, and within half an hour the contents of the building was a mass of fire.

The flames shot a hundred feet into the air at times, and burning brands were carried blocks by the wind. These brands, some of them many inches in length, were carried on to the roofs of the buildings a considerable distance away, and the chemical engine was kept on the rush from one street to another, putting out the smaller fires. Firemen were stationed on the roofs for several blocks with extinguishers to put out the flames.

Less than an hour after the first alarm was turned in the walls began to fall. The house at 10 Fair street was crushed beneath the wall next to it. In this house lived Samuel Glesner and his family. The house was flattened by the weight of brick falling upon it but the family lost but little, as most of the belongings had been removed from the building when the fire broke out.

A house at 28 Liberty street was also caught beneath a falling wall and wrecked. Several other houses were badly damaged by falling timbers and bricks. When the main wall fell it buried the tracks of the Pennsylvania railroad, and all traffic on that road was blocked for a time. A number of firemen had narrow escapes from being buried beneath this wall.

Fireman John VanHoughten of engine company No. 2 had a narrow escape early in the course of the fire. He had gone to the roof searching for a position from which to direct a stream of water. The roof gave way while he was on it. When he felt it sinking he jumped to the gutter and threw himself over so as to hang from the edge with his hands. The gutter was filled with boiling tar and although his hands were badly burned he managed to cling to the roof until rescued.

James Parker, who lives at 15 Hamilton street, was on the roof of his house with buckets watching for sparks. In throwing water on some of them he lost his balance and fell to the ground. He was badly injured about the head, shoulders and arms, but will recover.

Captain Frank Mercer of the salvage corps, was severely cut about the hands. Many firemen were also badly scorched and blistered by the heat.

The origin of the fire is unknown. Besides the raw materials and the finished work destroyed in the stamping establishment, much valuable machinery was ruined. The building belonged to James Aiken & Company, who are also interested in the stamping company. The stamping company started on full time last week and employed 487 men.

PRISONERS ESCAPE.

Both Are Desperate Men, but One of Them Has Been Reported Killed.

PERRY, O. T., Aug. 12.—At 5 o'clock Sunday morning Ben Cravens and Bill Crittenden, two noted United States prisoners, broke out of the federal jail here. Crittenden is a half-breed Cherokee Indian, and he and Cravens are classed as two of the most desperate men of the territory.

The men were arrested a few days ago six miles east of here after a running fight of five miles. The men had a preliminary hearing Saturday, and were remanded to jail on failure to give a \$1,000 bond.

A posse of 20 men are in pursuit of the prisoners and news has just reached here that a posse came up with them 20 miles west of here and Cravens was killed.

Ended His Life With a Razor.

HUNTINGTON, W. Va., Aug. 12.—John Riffe, one of the oldest settlers in this city, committed suicide last night by putting his throat with a razor. He was prominent in G. A. R. circles and is well known.

SUCIDED IN A CELL.

An Embezzler's Death Occurs a Few Hours After His Arrest.

CLEVELAND, Aug. 12.—George W. Lochmer, for several years bookkeeper at the city workhouse, was arrested yesterday morning on the charge of embezzlement of city money. At 7 o'clock yesterday evening he was found dead in a cell at the Central police station under circumstances which indicate suicide.

On June 9 it was discovered that Lochmer had been embezzling funds entrusted to him. The shortage amounted to about \$8,000. He was permitted to retain his position until his friends made good the shortage, and was then dismissed. Since then an expert investigation of the books showed a further shortage of about \$4,000. Lochmer was arrested at 4 o'clock yesterday morning. In the afternoon he made a confession in which he admitted the theft of \$8,000. He was then apparently in good health. An hour later he was found lying on the floor of his cell bleeding at the mouth.

He was put to bed and a physician summoned. The doctor advised that the man be sent to a hospital. When the ambulance arrived to remove him he was dead. The coroner is investigating the case. Lochmer was 38 years of age. He had a wife and two children, but he abandoned them soon after his crime was discovered and they are now in Detroit. For some time he had been living here with a woman who is believed to be an actress and he was with her at a house on Diamond park when arrested.

BATTLE IN A BOX CAR.

Three Tramps Attempt to Hold Up Three Storekeepers.

ASHTABULA, O., Aug. 12.—Six men had a desperate battle in a box car between Erie, Pa., and this place Saturday night. Three storekeepers named H. Eastlick, Bert Smith and John Meinhardt boarded the train at Erie to come to Ashtabula. At a water tank three tramps entered the car. When the train had got under way again two of the tramps drew revolvers and asked the men to hand over what money they had.

Smith had a revolver and showed fight. In an instant a battle between him and the two tramps was in progress. Eastlick was shot through the groin, Smith received a wound in the neck and one of the tramps had a bullet through his neck. Upon the arrival of the train here the wounded men were cured for. The tramp who gave his name as John Cuddy of Waterbury, Conn., is in a critical condition.

Ready For the Last Sad Rites.

NASHVILLE, Aug. 12.—Chief Justice Fuller and Associate Justice Brewer came here last night to be present at Justice Jackson's funeral. They went at once to the residence of Assistant Attorney General J. M. Dickinson. They were met at the station by a committee appointed by the Nashville bar. All arrangements have been completed for the interment of Justice Jackson's remains. The ceremonies will be simple and conducted by Rev. J. H. McNeely of the Presbyterian church, and Rev. J. Lin Cave of the Christian church, and the burial will be at Belle Meade, six miles from this city.

Lake Vessel Run Down.

THE WEIRS, N. H., Aug. 12.—The steamer Gypsy, owned by George P. Bartlett of Meredith, was run into and sunk in Long Bay, an arm of Lake Winnepesaukee, by the steamer Mineola, late Saturday night. Seven persons, including two women, who were on the Gypsy were rescued and taken to Lake Port by the Mineola. The pilot of the Mineola claims that there were no lights showing on the Gypsy, and, as the night was very dark, he did not know of the presence of the other vessel until the crash came.

Picnic Broken Up by a Murder.

SCOTTSDALE, Pa., Aug. 12.—The iron workers' picnic at Ellsworth park was broken up by a murder about 10:30 o'clock Saturday night. John Gallagher of Everson, stabbed James Welsh of this place in the neck, severing the jugular vein, which caused death in a few minutes. Gallagher, who had been a nonunion worker during the big strike last year, was chased out of the grounds by a crowd, and after running about 150 yards he turned and stabbed Welsh, who was nearest to him. He made his escape.

Japan Preparing for Another War.

SAN FRANCISCO, Aug. 12.—Japan is evidently preparing for another war. The little island empire wants 20 new warships and on Tuesday Irving M. Scott will sail for Japan to secure the contracts for building some of the war vessels. San Francisco is the nearest port to Japan where the ships can be built and as the U. S. iron works have a reputation for building first class ships, Mr. Scott expects to return with enough contracts to keep his company busy for some time.

American Lady Arrested in Liverpool.

LIVERPOOL, Aug. 12.—The police here arrested on Saturday on board the Cunard steamer Etruria, an American lady booked for New York. She was booked under the alias of Stanley, and was charged with stealing jewelry to the value of \$2,000 from Mrs. Gibbons of Ridgmont Gardens Gower street, London, whose guest she was during July under the name of Millie Millet. The jewelry was recovered.

COLON, Colombia, Aug. 12.—The governments of Nicaragua and Costa Rica have notified steamship agents that the prohibition against the landing of priests and nuns has been removed, and free entry is accorded to all except Chinamen.

MISSIONARIES' PERILS

Situation in China Described by Miss Cushman.

CAUSE OF THE MASSACRE.

It Is One of the Results of the Recent War Between China and Japan—Foreigners Can Never Tell When a Mob Will Come Upon Them—England Urged to Take Some Immediate Action.

BOSTON, Aug. 12.—The Standard prints an exhaustive interview with Miss Clara M. Cushman of Dedham concerning the missionary situation in China. Miss Cushman was for many years a missionary in Pekin, having been sent there by the same society as that under whose auspices Miss Hartford has been working at Ku-Cheng.

In this interview Miss Cushman asserts the belief that these latest massacres are one of the results of the recent wars between China and Japan. Ku-Cheng is many hundred miles from the central government at Pekin, and it is probable that the people had only rumors of the trouble and so got on sorts of stories, some of which may have started the trouble.

"The uninformed Chinese," Miss Cushman continued, "believe that the foreign missionaries cut out the eyes and hearts of the natives to use for medicine. They are quick to accept any story that they hear, so that the foreigners there can never tell when a mob will come upon them."

Miss Cushman thus describes Ku-Cheng.

"Ku-Cheng is quite a distance from Foo-Chow up the Min river. It is a walled city of about 20,000 inhabitants and has the reputation of being a very neat and clean city. Long-Bing is still further inland."

Miss Hartford has an assistant, Miss Wilma H. Rouse of Minnesota, who was probably not in the massacre, as her name is not mentioned. The missionary society of the Methodist Episcopal church has two other missionaries at Ku-Cheng, Rev. M. C. Wilcox, presiding elder of Ku-Cheng district, and Dr. J. J. Gregory in charge of Wiley hospital. The only building owned by the Methodists is a chapel valued at \$2,500 in which the average attendance at Sunday worship last year was 250. Their homes, schools and hospitals are in hired houses, which fact may have saved both buildings and inmates from the fate of the English missionaries and their buildings.

Miss Cushman, being in a position to speak of Miss Hartford, who so narrowly escaped death at the hands of the Vegetarians through personal acquaintance, says of her:

"Miss Hartford was sent to Ku-Cheng in 1887 by the Woman's Foreign Missionary Society of the Methodist Episcopal church. She was at that time a very popular teacher in the public schools of Dover, N. H. She has no father, mother, brother or sister living, but is entirely devoted to her work. Although the five-year term for which she went has expired, she has steadily refused to accept the vacation, with privilege of visiting America, saying that she preferred to stay in China with the work and finally die there. But, because of ill-health and need of rest she had almost made up her mind to take the needed vacation when the troubles came on. Mrs. Alderman of Hyde park, the corresponding secretary of the New England branch of the society, has written to her, advising her to take this opportunity, while the country is settling down again, to come to America."

That trouble has been long brewing seems proven by part of a letter received by Mrs. Alderman from Miss Hartford. It is dated Foo-Chow, May 2, and says: "I was obliged to close the woman's and girls' schools April 9, on account of fears of local insurrections. The English missions closed their schools two weeks earlier, but I had hoped matters might clear up, and so held on. At last I found I could not stand out alone any longer. Every one thought schools ought to be closed, so I yielded. Then I was sick, so when Dr. Gregory urged me to come to Foo-Chow and have a rest I came."

Miss Hartford is in charge of the Ku-Cheng and Long-Bing districts of Foo-Chow woman's conference. Her report to the last annual conference showed in the Ku-Cheng district one boarding school with an enrollment of 44; 14 day schools with an enrollment of 200 scholars; one bible training school with an enrollment of 20.

Miss Althen M. Todd of this city is now under appointment to join Miss Hartford at Ku-Cheng and was expected to leave in about a month.

Miss Cushman thinks the criticisms made of United States Minister Denby are unjust as, during her residence in Pekin he had been very careful to protect the missionaries' rights, was on friendly terms with them all, and they esteemed him very highly.

England Urged to Action.

LONDON, Aug. 12.—The Times publishes a dispatch from Tien-Tsin, which says that Amoy dispatches received there report meetings of Europeans demanding that England act with energy and make reprisals if necessary to protect her subjects.

WILMOT, N. D., Aug. 12.—Dr. J. H. Whiteford of this place, while laboring under temporary aberration of mind, shot and killed his wife yesterday. He then turned the weapon upon himself with fatal effect. He has been a prominent physician here for years and the tragedy is a terrible shock to the community.

CRUEL ATTENDANTS.

Efforts Made to Fathom the Murder in the Chicago Insane Asylum.

CHICAGO, Aug. 12.—Superintendent Morgan of the Cook county asylum for the insane, said yesterday that he had secured considerable new evidence regarding the killing of George Badizick Friday, and that it pointed strongly to the equal guilt of Attendant Anderson with Attendant Gough.

The superintendent refused to make known what the evidence was, saying if it became public at this time it might have the effect of quieting persons who are expected to give further information. Mr. Morgan said that he proposed to leave no stone unturned to convict Anderson and Gough if sufficient evidence could be secured for that purpose. Dr. McGrew, the hospital physician, says that this is not the first time Anderson and Gough have been guilty of gross cruelty to patients. He says that he has reported them to the officials, but that political influence has always prevented their discharge.

It was said last night that Dr. McGrew's failure to examine Badizick when he was admitted to the asylum may cost him his position. It is the custom to give each patient a bath as soon as he is received, and at that time a close examination of his physical condition is made. Had Dr. McGrew followed out this practice, the case against Anderson and Gough will be much stronger, as it could not then have been claimed by them that Badizick had received his wounds prior to entering the insane asylum. This is thought to be the defense they will make.

F. J. DRUNK FOR WORK.

Two Negroes Saved From Being Lynched by a Mob.

LEBANON, Ky., Aug. 12.—A mob of about 40 men went to the Springfield jail about 1 o'clock Sunday morning and demanded of the jailer the keys leading to the cells of Matthew Lewis and Jesse Ray, who outraged Mrs. Shields, white, recently.

The jailer, seeing resistance was useless, handed over the keys and the mob at once proceeded to business. As everybody in the mob was drunk none of them seemed to be able to unlock the jail doors. After working at the levers and bolts without success, they procured sledge hammers and tried to batter down the doors. The doors proved too strong for them, however, and after an hour's hard work they abandoned the job. They then emptied their revolvers into the cells of the jail, but no one was hit. Returning the keys they told the jailer they would be back again.

The mob was composed of men from Washington and Marion counties, and it is said, being from this city. The sheriff of Washington county passed through this city yesterday with Lewis and Ray on their way to Louisville, where the negroes will be confined until the excitement at Springfield is over.

BATTLE ON THE DIAMOND.

Indianapolis Base Ball Club Mobbed at Terre Haute.

TERRE HAUTE, Ind., Aug. 12.—The Indianapolis base ball players were mobbed here yesterday at the conclusion of the game. During the game there were many close points of play, and several decisions of Umpire Sheridan were taken exception to by the beachers.

In the eighth inning the game was stopped for fully 15 minutes, the crowd surging onto the field and making all sorts of riotous demonstrations. Umpire Sheridan was threatened, as were the Indianapolis players, who stood by him and prevented violence. After the game and Indianapolis had won the crowd became frenzied. A rush was made for Sheridan, and as a result three of the Indianapolis men were injured—Motz, Hogan and Fisher. The latter's ankle was sprained, and Motz and Hogan received injuries about the face and body, though their injuries are not serious.

LOST ART DISCOVERED.

Two Pittsburg Men Claim They Can Weld Copper to Iron or Steel.

PITTSBURGH, Aug. 12.—George Cronley, Cornelius Shay and John Ryan, iron and steel workers, have discovered the lost art of welding copper to iron or steel. They show several samples of the metals perfectly welded. The last record history gives of these metals having been welded was in Scandinavia 500 B. C. The value of the discovery comes in the fact that copper offers greater resistance to the action of salt water than any other metal.

The Carnegie company has offered the men a fixed price for the secret. A shop has been fitted up for the men at the Homestead plant where the men propose to weld a plate of copper to an ingot of nickel steel armor plate. The Carnegie company hopes to be able to cover all armor plates for the big battleships with copper.

Struck by an Excursion Train.

SYRACUSE, Aug. 12.—A Sunday excursion train on the Rome, Watertown and Ogdensburg railroad struck a party of pleasure seekers, consisting of James M. Northrop, a speculator, his wife and 4-year-old child, at the Marsh road crossing yesterday, fatally injuring Mrs. Northrop and seriously injuring both of the other members of the party. Mr. Northrop was driving across the track at one of the most dangerous crossings in the city, and did not notice the approach of the train. His carriage was demolished and all of the party were thrown over 50 feet.

Fertilizer Factory Fire.

BALTIMORE, Aug. 12.—The fertilizer factory of Joshua Horner, Jr., & Company was burned yesterday. Loss, \$100,000; insurance, \$50,000.

SOLDIERS REVIEWED

A Flowery Affair Comes Off in Havana.

CENSORSHIP NEWS OF COURSE.

Thirteen Hundred Havana Volunteers Listen to a Speech by General Campos and Then Depart for the Front—A Different Story Told by Passengers Direct From There.

HAVANA, Aug. 12.—Early Sunday morning immense crowds began to invade the Parque de la India, to be present at the review of the 1,300 Havana volunteers which were going into the field. The city was gayly decorated and thousands of ladies were on the streets and in the balconies overlooking the route of the parade.

At 8 o'clock Captain General Martinez de Campos arrived at the park, accompanied by his staff, by General Aderius, by the governor and by his secretary and by Calvo Munoz, and preceded by the Pioneers. This is the first appearance in public of Captain General Campos since the battle of Peralejo, the name by which the battle between Manzanillo and Bayamo on July 13, in which General Santocildes was killed, has come to be called.

Marshal Campos is an enemy of personal demonstrations. Nevertheless he was received by all the colonels and officers of the volunteers, while 15 bands played a grand march. The police were not able to restrain the crowds from rushing out through the barriers to greet General Campos, cheering Spain and shouting acclamations for the conqueror of Peralejo. The enthusiasm was indescribable and General Campos was never received with more kindly demonstrations by the people.

After he had reviewed the volunteers, General Campos with great emotion delivered a patriotic speech. He said that the volunteers were going to protect the plantations and property which were threatened with burning by a mob, whose only motto is destruction, when they ought to be, as native Cubans, the first to defend this property.

The volunteers left immediately by express train for Viller.

Lieutenant Colonel Rodon, with 800 troops and artillery, left Bayamo to protect a convoy which was transported by the River Caute. In El Judío, near Coralito, he surprised the insurgents with a discharge of rifle shots by the van guard and with five shots from the artillery. The insurgents lost 10 killed and 26 wounded, and were dispersed to the mountains.

NEW PROVISIONAL GOVERNMENT.

Cubans in New York City Delighted With Its Formation.

NEW YORK, Aug. 12.—Cubans in this city are delighted at the news that a provisional government has been formed in Cuba, with representative men as its officials. Colonel Lopez de Quesada, a prominent Cuban patriot, said:

"The president-elect, General Maso, is a Cuban to the very core of his heart. He is a native of Manzanillo, is the owner of vast properties in Cuba, and is wealthy. General Maso is about 55 years old, and has a record as a valiant soldier."

"Joaquin Castillo, who has been selected as diplomatic agent to the United States, is well known in New York, and is extremely popular. He was born in Santiago de Cuba, and is about 35 years old. He was educated at the University of Pennsylvania, studied medicine and became a surgeon in the United States navy. He was surgeon on the steamer Rogers, which went to the rescue of De Long and his party, the Arctic explorers."

"All the men selected for the new government are capable and brilliant and the Cubans of this city regard their election as significant of a glorious epoch in the history of our island."

STORY TOLD BY PASSENGERS.

General Campos Has Fears of the Revolution Extending.

TAMPA, Fla., Aug. 12.—Passengers arriving last night on the Cuban steamer state that Marcos Garcia, who was reported to have joined the insurgents, arrived in Havana Friday and had an interview with Campos. He is not with the insurgents.

Generals Salcedo la Chumbre and Bazan of the Spanish forces have been relieved of their commands in Santiago province and are in Havana.

General Koloif threatened to destroy Santa Esparitus with dynamite bombs. This caused the depopulation of the city by every man who could bear arms except the Catholic priest, and all joined the insurgents.

Campos admits that he has fears of the revolution extending. He is now endeavoring to unite the Spanish parties—Conservatives, Autonomists and Reformists. The insurgents have possession of all the country east of Matanzas. Campos' efforts are directed toward keeping them out of the principal cities, fearing their success on this point as deserving recognition as beligerents.

La Luch came out last night heading two blank columns "News of the day."

EAGLE PASS, Tex., Aug. 12.—Ten deaths from smallpox and five new cases are reported at the quarantine camp. Dr. Magruder of the Federal marine service has taken full charge of the camp, assisted by Dr. Ahens, smallpox specialist, and Dr. Rossman, bacteriologist. The further spread of the disease has been practically checked by the successful vaccination of the unaffected negroes.

Miss KATE ALLSPAUGH died early Sunday morning at Lexington, aged forty-one years. She was a sister-in-law of Mr. H. C. Dieterich and the late Chas. P. Dieterich. The remains will be brought here to-night and the funeral will occur tomorrow afternoon at 3 o'clock, at the residence of Mr. H. C. Dieterich, at the nursery.

MR. PATRICK HILL, aged sixty-six years, died last night at the County Infirmary. He was born at Washington, and leaves one sister, Mrs. Hunter of Millersburg. He was a half-brother of the late C. B. Hill. Deceased had been a member of the Christian Church for years, and, though in feeble condition for a long time, was a faithful attendant every Sunday morning. His remains will probably be interred at the Kirk graveyard on the Clark's Run pike.

The city of Lexington has filed a suit for \$125,400.28 against J. Hull Davidson, ex-City Collector and ex-Mayor. The city also filed suit against A. B. Lancaster and A. S. Winston, administrators of the estate of the late M. P. Lancaster, Davidson's father-in-law and bondsmen for \$80,000. Some time ago experts alleged that they found a shortage of \$17,000 in Davidson's books as Collector. An effort was made to compromise with Davidson, but the matter got into politics and Davidson withdrew his offer of compromise, hence the suit. The surprise comes in at the amount of money sued for, it being believed that the city would only lay claim to the \$17,000 alleged shortage. The petition sets forth that the city holds Davidson responsible for all delinquent taxes that accrued under his four years administration as Collector. Davidson's successor, Stephen G. Sharp, who served a term as State Treasurer, has been found \$19,000 short in his accounts by the experts, but he proposes to pay without being sued and is a candidate for re-election.

Rev. Hick's Forecast for August.

Rev. Irl Hicks gives the following forecast for balance of August: From 6th to 8th look for very warm weather, with threatening clouds and thunder storms from the northwest, followed by cooler. About the 16th another period of great heat will recur, during which storms will threaten in many places, but as a rule they will result in little rain and much bluster. The times of respite from summer heat will, as a rule, fall between the storm dates of the calendar, beginning in extreme western sections before the end of the storm periods. From 19th to 22nd is a reactionary period, with new moon at an eclipse on the 20th. Heavy summer storms with earthquake probabilities about the 20th and 21st. Cooler weather will follow about 25th, 28th. Mercury equinox on 30th will affect storms of this period, with much cloudiness and rain, and very cool weather following. Probably frost in extreme north about 23d to 29th. Month ends growing warmer, with storm conditions reappearing in the western sections.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

The Fields grove tent meeting revival conducted by Rev. L. Robinson was a great success. There were twenty-one additions to the church and thirty-five other conversions. Enough money was subscribed to build a new church in that vicinity. Great crowds attended throughout the meeting. The following ministers preached once or more during the meeting: Rev. Ernest Robinson, Rev. Mr. Brown, (evangelist), Rev. D. W. Robertson, (Presiding Elder), Rev. David Cooper and Revs. Allen and Mattingly. The music was conducted by Profs. Fogg, cornetist, and Gardner, organist.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

No prospect at last accounts of a rise at headwaters.

Several retired Cincinnati boatmen, who are large capitalists, together with Eastern capital, are urging Commodore Barrett to build four large and light-draught passenger steamers for the Madison and Louisville trade.

The Barrett line was Saturday offered the transportation contract for carrying the entire Ohio G. A. R. posts from Gallopis and all up-river towns and from Cincinnati and vicinity to the Louisville encampment in September. The proposition, or rather it was more in the nature of a solicitation, came directly from the Chairman of Transportation. It will require about ten steamers to carry out the intention of the G. A. R.

IT WILL CHARM ANY WOMAN

To see our gathering of choice things for summer wear. It will surprise the thriftiest among them how absurdly small many of the prices are.

White Parasols. French Challies.

You have two months to use them still and you will be equipped for next summer at one-half the price it will cost you then.

Silkene, English frame, white enameled stick, very chic, 98 cents.

Unruffled Silk, close weave, handsome quality, white enameled stick, \$1.25.

Finest grade China Silk, ruffled edge, close ribbed, beautifully enameled stick, \$1.50.

Not because they are shop worn or bad design, but because we don't want the season to go before they do. Nothing prettier for dainty house gowns this winter, attractive tea gowns or well-wearing school frocks, and the price is purse-pleasing at 25 cents. These goods are genuine all wool French Challies, the kind that sell for 50 and 75 cents. They are certainly well worth your attention if you are a wise woman. Are you?

WORDS OF PRAISE.

What the Cincinnati Papers Say of Maysville's Ball Team.

One of the Greatest in the Country Either in Or Out of the Big League.

All the big Cincinnati papers were represented at the ball game Friday either by their sporting editor or members of their reportorial staff, and that they got stuck on Maysville's great team is evident from the words of praise they showered on the boys. Here are some of the accounts of the game, with notes.

Commercial Gazette: Captain Ewing went with the Cincinnati team to Maysville Friday to wipe out the defeat which the Reds suffered at the hands of the Kentuckians several weeks ago. Even the presence of the Reds' leader on the field did not prevent the Maysville ball-tossers from adding another scalp of a National League team to their string. If ever a team played fine ball it was the Maysville boys Friday. They put up a game that would have done credit to Boston or Baltimore.

They were not particularly strong with the stick, but their fielding was as fine an exhibition of the national game as has ever been witnessed on any diamond in the country. Before the Reds left the hotel Captain Ewing told the players that he expected every man on the team to play as though the pennant hinged on the game.

The team did play good ball, but their opponents played better. "Tack" Tom never tried so hard to win a game. He pitched effective ball in every inning but the third, when the Maysville boys drove out two doubles and a home run, which netted them three runs.

Ewing wanted Watson to allow Vaughn to assist Mathews in umpiring, but the Maysville manager would not listen to the proposition, and when play was called, Mathews was found in charge. Mathews was good, with the exception of one decision which he handed down in the last inning. He declared Miller out at the plate when he was safe. This decision cost the Reds the tying run, and consequently the game. This error on the part of the umpire, however, should not detract from the credit of the Maysville club, for it looks as though a National League team ought to defeat an amateur club, umpire and all, at any time.

Maysville can justly feel proud of its team. They are a scrappy lot, always out to win, and put up an article of ball that no team will find easy to beat.

Johnny Hellman, a Cincinnati boy, is playing short for the Maysvilles. If the exhibition he gave in Friday's game can be taken as a criterion of his ability, John has not long to stay with Maysville. He belongs in the big League. There is no company too fast for him. He had eleven chances in the field, and accepted every one of them without an error. At least six of them would have been base hits had not this sensational youngster knocked the ball down in its flight. His stop of Fagiu's hard grounder in the first was one of the features of the game. It was his throw from deep left that cut Miller off at the plate and saved the day for Maysville. Besides his fielding he got in two timely hits.

Wadsworth, Hall and Sutherland, of the Maysvilles, are the only three players on the team that live in Maysville. All of them were very much in evidence in the game Friday. Sutherland's work on first was fine, while the fielding of Wadsworth in center was great. His capture of McPhee's line hit in the ninth was a grand bit of fielding. Captain Ewing said after the game that Wadsworth had a bright future before him as a ball player. He is a good fielder, but not a strong batter.

Rieman pitched as well against the Reds as he has against amateur teams this season. He has speed and a change of pace that is very deceptive to the batsman. He works like an old leaguer, never becomes rattled at critical stages and fields his position like a veteran. He believes in putting them over the plate, and not one of the Reds were given free transportation to first in the game Friday.

Van Winkle's hitting against the Reds Friday is worthy of special mention. Tom Parrott's speed seemed to be to his liking, and he hit the ball hard every time that he came to the bat. His home run drive in the third was a clean hit to the left field fence. The ball was hit so hard that Burke did not have time to get to it, although it was not more than five feet to his right. Van seems to be a natural born hitter.

Harry Vaughn had an experience while waiting for the train that he will not very soon forget. Some of the Maysville people were kidding Harry over the defeat of his team. They said nothing that he should have felt offended at, but Harry can not stand much joking, and he soon grew angry. He singled out one of the boys in the party, and abused him roundly. In a moment there was a crowd of about 100 of Maysville's citizens around the Reds' catcher, who threatened to thrash him if he did not apologize to the boy. One of the crowd even went so far as to throw a stone at Harry, which hit him in the back. Harry was in a predicament, and he was forced to beg the lad's pardon. Even then there were some who thought that he deserved thumping, and it was only by the interference of some of his fellow players that he escaped.

Equilizer: Friday morning Captain Ewing and his warriors bold, reinforced by thirty or forty rooters with big hawk rolls in their inside pockets and a varied assortment of exultant yells tucked away in their respective throats for future use, started for Maysville, Ky.

Their mission to blot out the stain put on their fair base ball escutcheon during an invasion that they made about a month ago.

Friday night players and rooters returned to their native heath. No longer was their chins in the air, their chests protruding or their bank rolls in evidence. They dropped off singly and in pairs on the wrong side of the train and hunted their respective homes by side streets and back alleys.

The stain was not blotted out. Instead another stain—a regular smear, so great was its proportions—was added to their troubles.

What do you think of Maysville's team of 800 a month players rubbing it in on our high-priced

National Leaguers by repeating the bitter dose that was administered the last time they were in Kentucky.

It is always the unexpected that is transpiring in all branches of sport. One hundred to one shots win on the turf once in a while, and if ever a team looked like a 100 to 1 shot the Maysvilles did before play ball was called Friday afternoon.

Usually when a league team plays an exhibition game the players do not exert themselves. They know that it doesn't count, and they generally loaf along and never make any special effort until it is absolutely necessary. No such excuse pertained to yesterday's game. The Reds had been beaten before at Maysville, and it was announced by the members of the Reds themselves that they had come up for the special purpose of getting even. Everybody in the big team was out for blood.

Overanxiety and several shades the worst of the umpiring, combined with the fact that the Kentuckians played a remarkably fine game of ball, defeated the purpose for which they had journeyed so far.

All credit is due the Maysvillians. They won the game, while not strictly on its merits, yet so close to it that it wouldn't be right to detract from the victory by offering excuses. True, there were three very questionable decisions given against the Reds, any one of which might have given us the game, yet the umpiring was so much better than a league team generally gets from home umpires in exhibition games that the leaguers ought to have taken up this handicap and won anyhow.

There was nothing blood-rav about Mr. Mathews's decisions. His work did not have a Jesse James flavor. He is one of the best-known young men in Maysville, and he only favored the home team in close decisions, a condition of affairs that even league team ought to expect.

The Kentuckians made one more hit than the Reds, and the errors were the same. Both teams have the same record for total bases on clean hits. It will thus be seen that the game was pretty nearly a stand-off.

The game was characterized by some brilliant fielding on the part of the Maysvilles. Very few better games have been played than Hellman put up at short. He made some remarkable stops, and his throwing was of the best. Wadsworth played great ball in center field. His catch of a long fly from McPhee's bat in the ninth inning saved the day. It had all the earmarks of a home run. Sutherland played a grand game at first base. Very few amateur first basemen handle the throws that he looked after. McGann did well at second, as did Van Winkle at third and Cox at left. In fact, the entire team played great ball.

Rieman, who pitched the game, is a Covington boy, as is his catcher Tenley. This battery deserves a better place in the base ball world. Rieman pitched in masterly style. Possibly he did have a little the best of the umpiring, but for all this he deserves credit for the manner in which he kept the Reds from hitting consecutively. Tenley caught him in good style.

Both sides made all their runs in one inning. The Maysville team made their scores in the third inning. Hall hit a hot grounder to short that Smith reached, but failed to handle. Then Wadsworth struck out. Sutherland then hammered out a beautiful two-bagger to center, and Hall came home. Van Winkle then hit one full in the face, and it went traveling down in left like a lightning express on a down grade with all brakes off. Eddie Burke gave chase, but run as fast as his short legs would carry him he was not fast enough to get the ball in until Van Winkle had scored a home run. Cox then made a two-bagger, but was left, as the next two men were easily retired.

The Maysvilles go to Ironton Thursday for a series of games.

The Reds want the Maysvilles to play them again on September 20th, at the Cincinnati park. The boys will go if satisfactory terms can be had.

The Tribune is the only Cincinnati paper that failed to accord the Maysville's courteous treatment. One thing can be said of the Tribune editor, he has not got the big head,—it's the little head that's troubling him.

The Manhattans, one of the leading amateur teams of Cincinnati, will come up to-morrow for two games with Maysville. The following will compose the club on this trip: Burke, Best, McGuinness, Auberger, Heupleman, Lloyd, McShauhe, Hayes, McLain, Kirtom; Schral and Berte.

The game Saturday afternoon between Murphysville and a picked nine resulted in a victory for the Maysville boys by a score of 18 to 13. "Willie Green" Hill pitched for the picked nine, and the Murphysvilles didn't get on to his curves until the seventh inning. The features of the game were "Jum" Luman in right, and Kid Kenney's work on first.

CUT AFTER BLOOD.

Two Foreigners in San Francisco Want to Fight a Duel.

SAN FRANCISCO, Aug. 12.—Senator Calderon, consul for Salvador, is on the warpath and seeks the blood of M. Casin, president of the Central American Development company. He has challenged Casin to a duel and the latter has signified his intention of fighting the consul.

While Casin was in company with Consul Ballen of Ecuador Calderon passed them on Kearney street and sneered at Casin. The latter rushed after Calderon and begged him to follow him, that they might fight it out. Instead Calderon sought the protection of a policeman, and declined the invitation. Then Casin called him a coward and a bob-tailed yellow dog, and other unpleasant things. Still Casin would not fight, and went home under guard of the policeman.

Later, however, as Casin was dining with General Ezeta, a messenger arrived with a challenge from Calderon to deadly combat. The message assured Casin that he (Calderon) was his friend and that Casin's mistaken friendship for Ezeta was all that came between them.

Casin said last night that he did not think it would be necessary to fight Calderon with deadly weapons; his fists would be sufficient.

Calderon and Casin were formerly intimate friends, but when General Ezeta arrived trouble began. Ezeta is Calderon's bitterest enemy while Casin has become very intimate with the fugitive warrior.

SUNDAY IN NEW YORK.

Some People Could Procure Drinks While Others Had to Go "Dry."

NEW YORK, Aug. 12.—Many new and interesting features in the fight of the saloonkeepers against the police which were promised for yesterday did not materialize, and the day simply fell into line with the other Sundays which have intervened since the reform police board took hold of the municipal administration. It was a pretty "dry" day but a shade pleasanter for the thirsty who have learned the scheme for securing drinks behind closed doors. To the stranger and uninitiated the day was almost as dry as any of the past half dozen Sundays.

Few liquor dealers took advantage of the privilege of keeping their places open which has lately been decreed legal, provided liquors are not given away or sold. The most notable instance was that of Steve Brodie who had no end of trouble in carrying on a charitable enterprise in his saloon. Brodie was giving away lemonade and taking a collection for a free ice fund when the police arrested him for breaking the Sabbath law, but he was promptly discharged by Magistrate Cornell. Afterward he was arrested twice, but each time was released and resumed business.

DEATH OF SOLON O. THATCHER.

He Was One of the Best Known Men in Kansas.

LAWRENCE, Kan., Aug. 12.—Judge Solon O. Thatcher, state senator from this county and one of the best known men in the state, died at 5 o'clock Sunday morning from Bright's disease.

Solon O. Thatcher was born in Hornellsville, N. Y., Aug. 31, 1830, and graduated from the Alfred academy, Union college and the Albany law school. He was a delegate to the first state convention in New York for the organization of the Republican party. After the Fremont campaign he removed to Kansas, locating at Lawrence. He has been judge of the district court and several times member of the legislature. In July, 1881, he was appointed by President Arthur as one of three commissioners to the countries of Central and South America to negotiate treaties and perform other diplomatic work. The funeral will be Wednesday afternoon at 4 o'clock.

STORM IN INDIANA.

Considerable Damage Done by a Tornado Which Lasted Thirty Minutes.

RENSSELAER, Ind., Aug. 12.—A tornado of wind, hail and rain struck this town yesterday afternoon and lasted 30 minutes. The storm appeared to be only about a mile wide. Stables and outbuildings were demolished. A large hay barn without a floor, occupied by a family, was transported 100 feet and scattered across the railroad track. The family and furniture were uninjured. The Roman Catholic Church was partly destroyed.

The tin roofs on three-fourths of the big houses in town were either blown off or materially injured. The dry goods store of Ellis & Murray was injured \$5,000 to \$10,000. At least 50 dwellings were partially ruined by heavy trees blowing down on them. A colored campmeeting was routed and its large tent wholly demolished. The damage will aggregate \$20,000. No one was seriously injured.

DASTARDLY DEED OF A BURLY NEGRO

Father and Son Stabbed While Protecting Three Girls.

KALAMAZOO, Mich., Aug. 12.—Simon and William Castead, father and son, were frightfully hacked and stabbed by William Rose, a burly negro, in this city last night while they were trying to protect three girls whom Rose was trying to overtake on a lonely road.

The father had part of the muscles of one arm severed and received a thrust over the heart, and the son received a bad gash in the neck and several deep thrusts in the body. The girls had taken refuge from the negro in the Casteads' yard, and the two men were attacked when they ordered him to leave. Rose has been arrested. His victims will probably be crippled for life.

Quiet at Spring Valley.

PRINCETON, Ill., Aug. 12.—The situation is quiet in Spring Valley. The colored policemen are still on duty and little or no fear of another outbreak is felt. Many Italians are currently reported to have left the city, fearing that arrests on a large scale will be made.

Food

—But No Appetite

is a worse fix than "appetite but no food." Can you eat a meal with relish, or can't you? If you can't your stomach probably needs looking after, and this is the way to look after it: Take a tablespoonful of

Brown's Iron Bitters

in a little water, three times a day for a week and you'll be surprised how well you'll feel, and how hungry you'll be, and—**but isn't this enough?**

Brown's Iron Bitters is a medicine for all ages—children like it, and old persons nearly always need it.

It is pleasant to take and will not stain the teeth nor cause constipation. See the crossed red lines on the wrapper.

ELECTRIC FLYERS.

Only a Matter of a Few Years Probably When They Will Be Speeding Over the Railroads.

PHILADELPHIA, August 5.—A combination of working agreement which will begin to revolutionize locomotive building throughout the world was formed in this city to-day. Its parties are the Baldwin Locomotive Works, of Philadelphia, and the Westinghouse Electric Company, of Pittsburgh. Together they have nearly \$20,000,000 capital, and will employ over 10,000 men. The official announcement of the big deal was made this afternoon by a member of the firm of Burnham, Parry, Williams & Co., owners of the locomotive works. The coalition of interests will result in the early introduction of improved forms of electric motors instead of steam for railroad companies. Though by the agreement the two companies will hereafter work as one, yet both plants will be retained as they are at present, extensions being made as the business warrants. There will be a division of the work, the Baldwin Company taking up such as is suitable to its facilities. The electrical work will be done by the Westinghouse Company. A member of the big locomotive firm, in speaking of the coalition this afternoon, said:

"We have been seriously discussing the matter ever since the latter part of April, and in view of the improvements which we jointly consider the electrical developments of railways to have been, we thought it to our advantage to combine our interests, and in furtherance of that policy have concluded contracts which make a practical partnership, and we are now prepared to construct electric railways, locomotives and everything that pertains to electrical operation of railroads.

"We have contracted with an eminent engineer, David L. Barnes, of Chicago, and expect to push business for all there is in it."

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malaria poison. Headache, Indigestion, Constipation, Dizziness, yield to Electric Bitters. Only fifty cents per bottle at J. James Wood's drug store.

Mrs. KATIE D. PEARCE, who for some years has made her residence in Lexington, will return to Maysville soon, and will occupy the residence of Dr. Adams, lately vacated by Mr. George W. Rogers. Her many friends will be pleased to have her among them.

Miss ETHEL NOLIN, of this city, will teach the ensuing term at Franklin Seminary, Fern Leaf.

Dog Day Doggerel.

Somewhere we know the moon looks down Upon a trembling sea; Somewhere the forest lifts its crown Up toward eternity— And somewhere else, 'tis hot as sin And wretched in dust and smoke, And that's the place where we're shut in— We helpless city folk. —Washington Star.

Senator Blackburn's Hot Box.

[New York Telegram.] Says Senator Blackburn in a speech in Frankfort, Ky.: "There is not a reporter in Louisville who does not lie awake at night racking his brain to make up a lie on me that will beat the lie his brothers have fixed up. They must be expert liars in order to earn their hire." Pure midsummer madness. Even if it were true, as the infuriated Senator charges, that his former political associates and supporters have formed what he calls a "conspiracy" to defeat him, that circumstance would afford him no sort of occasion for abusing newspaper reporters. When a politician, or any other man in a position of public prominence, falls to abusing newspaper reporters, he may be safely pronounced "rattled." He is at the last gasp and is prodigally using it to complete the process of his own suffocation.

Senator Blackburn once gave promise of a happier fate.

BIG PROFITS Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10.00 FOR EACH DOLLAR INVESTED can be made by our.....

originate by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time. Daily Market Report, full of money-making pointers. ALL FREE. Our manual explains margin trading fully. Highest references in regard to our standing and success.
